Description

ECOair air heater of **AEH** type is available in 7 sizes with a heating power of 6 kW to 36 kW.

AEH devices offer a new concept in electric heaters, they include automatic mechanism and overheat protection unit, making our product self-sufficient.

Control panel is permanently connected to the machine, fully automated, it only needs to be connected to the power supply and if necessary to the thermostat.

Advantages

- Do not consume oxygen so it can be used in closed rooms without ventilation,
- Does not produce gas or moisture,
- Odorless, does not produce odor,
- Quiet operation,
- Efficiency of 98%,
- Heating elements are made of stainless steel, provide durability,
- Small size and weight,
- Easy to install and use,
- Motor with thermal switch.

Construction

Outer housing - made of steel, powder painted in gray.

Electric heat exchanger - manufactured using the element tungsten element, hermetically sealed/closed inside a steel tube with spiral plates.

Three-phase electric motor, 400 V, 50 Hz, single speed 900 r/min. The device has an internal thermostatic protection and terminal block for electrical connections.

Technical data

Model	Air volume (m ³ /h)	Total watt (kW)	Weight (kg)	Motor 400 V		
				g/min	W	A
AEH 06	1000	6,48	32	900	50	0.40
AEH 09	1000	9,72	35	900	50	0.40
AEH 11	1800	11,10	43	900	50	0.40
AEH 17	1800	16,65	45	900	50	0.40
AEH 24	3600	24,00	60	900	120	0.58
AEH 30	3500	30,00	61	900	120	0.58
AEH 36	3400	36,00	64	900	120	0.58
