Description

ECOray electric Infrared heater of **REH** type is designed for heating large areas, particularly industrial and sports halls, workshops and warehouses. It can be used to heat the entire surface, as well as the individual zones (zonal heating). In an aggressive environment with high air humidity, such as car washes - The manufacturer recommends the use of corrosion-resistant heater of **REHs** type - made of stainless steel sheet.

Advantages

- easy and inexpensive to install,
- maintenance-free,
- quiet operation with no air movement,
- the possibility of zonal heating,
- fast time-to-thermal effect,
- simple and quick expansion of the existing system,
- the possibility of including only for the work duration.

Technical data

Model	Input (W)	Voltage (V)	Class of protection	IP	Dimensions (mm)	Weight (kg)	
REH/REHs 09	900	230 V	I	IP44	1500 x 130 x 50	6	
REH/REHs 12	1200					6	
REH/REHs 18	1800	230/400 V			IP44	1500 x 230 x 50	10
REH/REHs 24	2400						10
REH/REHs 30	3000					1500 x 330 x 50	14
REH/REHs 36	3600
